

*Improving the sustainability of the textile dyeing industry*

### **Job Description – Colour Management Technician**

#### **Company:**

[Colorifix](#) is a biotechnology company that aims to bring a novel, sustainable and environmentally-friendly process to the textile dyeing industry by eliminating the use of hazardous chemicals as well as allowing for large savings in water and energy use. Colorifix has been recognised by winning awards in both synthetic biology and fashion, with full information available on our [website](#). Our investors include Bombyx Capital, Cambridge Enterprise, H&M, Synbioven and Sagana, whose collective backing is funding our expansion.

#### **Role description:**

As part of the team, and based in Cambridge, the Colour Management Technician will play an integral role in supporting the day-to-day operations in Cambridge and the colour lab in Norwich, UK. The ideal candidate should be looking for a new challenge in a fast-moving, collaborative environment and has significant experience in colouration that spans both laboratory and large-scale industrial situations. Colorifix is looking for a candidate who enjoys multidisciplinary teamwork, takes on challenges, and shows flexibility, creativity, and enthusiasm.

#### **Key Duties and Responsibilities:**

- Administration of all Master Shades both in sample copy and colour data.
- Visual and instrumental analysis of all shade production.
- Accurately communicate colour management to all divisions
- Assist in the general operation of the pilot dyehouse, including machine monitoring, compilation of reports,

#### **Role Requirements:**

- Expert colour vision
- 3+ years experience in colour management
- Very good knowledge and experience in instrumental colour measurement and assessment.
- Understanding of dyeing and finishing of textiles would be advantageous.
- You are highly organised with strong attention to detail, with the ability to plan, design and have fixed deadlines.
- Experience in problem-solving skills and the ability to manage several tasks simultaneously.
