

Lingerie Garment Technologist

At Lovehoney, it's our teams of innovative and dedicated people, from all kinds of backgrounds, who have made us one of the world's largest, award-winning online sex toy retailers. With nine regional websites serving customers across the globe, and warehouses and call centres in Brisbane, Atlanta, and Bath, we are growing rapidly as an international retailer, manufacturer and distributor. Our focus is on exceptional customer service and product innovation and we are proud to be at the forefront of developments in the sexual wellbeing market. Would you like to join us for the next part of our journey?

An exciting opportunity has arisen for an experienced Lingerie Garment Technologist to join the company at a point where we are growing our in-house lingerie development team to design unique, innovative and industry-leading products.

The Lingerie Garment Technologist will work within the New Product Development team, and will be responsible for ensuring all new product for our Lovehoney Own Brand is developed and fitted according to our measurements and technical requirements. The position will manage the technical processes and liaise closely with our suppliers and factories to ensure our high standard of fit and quality is maintained.

What you'll do:

- Measure and inspect garments for fitting
- Attend fitting sessions with our models and assess the fitting requirements
- Clear communication of the information to suppliers and factories
- Ensure all size specifications are maintained and filed for all products
- Work closely with the Design Team on product development
- Working closely with our internal compliance team to ensure all styles are to standard
- Management of lab dips and bulk submissions, sending feedback to suppliers and factories
- Approving fabric submissions
- Responsible for ensuring all care labels are requested and checked
- Management of files for all fabric and componentry submissions
- Ensuring seals and Pre Production samples are received on time for all styles
- Assist in creating technical packs
- Work with internal QC team to ensure garments are produced to the required quality
- Responsible for the Technical Manual, working with internal teams to ensure this is kept up to date and our suppliers/factories are informed of any changes

What you'll need:

- At least 8 years working in a similar role
- Extensive knowledge of working with Far East factories
- Able to work to a tight timeline and Critical Path

- In-depth knowledge of lingerie construction and fitting
- Knowledge of moulded cup development and lingerie fabric appreciation
- Attention to detail and accuracy

What we offer:

Besides the opportunity to join our talented workforce (and amazing team - if we do say so ourselves) we offer a wide variety of benefits including a competitive salary, pension scheme, health cash plan, generous staff discounts, gym membership and a fantastic annual bonus scheme. You'll have the opportunity to work from home, as well as our offices in the beautiful city of Bath, in a fun and friendly environment, where hard graft and the ability to meet a tight deadline is amply rewarded.

So if this sounds like your kind of thing, please fill out [this application form to apply now!](#)
